Wyoming Treatment Law Report Card

Last Updated: *January 2026*

Method and scoring: *State involuntary civil commitment laws* are evaluated using a 100-point grading scale. The scoring criteria are in accordance with TAC's values and policy recommendations. Up to 50 points are awarded to a state based on the quality of its inpatient commitment law, and up to 50 points are awarded based on the quality of its outpatient commitment law. *Grades reflect solely what is written in law and not how those laws are implemented or applied.* Final letter grades are computed using the following scale:
