

Arkansas Treatment Law Report Card

Last Updated: January 2026

Method and scoring: *State involuntary civil commitment laws* are evaluated using a 100-point grading scale. The scoring criteria are in accordance with TAC's values and policy recommendations. Up to 50 points are awarded to a state based on the quality of its inpatient commitment law, and up to 50 points are awarded based on the quality of its outpatient commitment law. *Grades reflect solely what is written in law and not how those laws are implemented or applied.* Final letter grades are computed using the following scale:

97 or above	A+	87–89	B+	77–79	C+	67–69	D+	59 or below	F
93–96	A	83–86	B	73–76	C	63–66	D

Comment:

1. Ark. Code Ann. § 20-47-207(c)(2)(C) does not provide a clear statement of what it means to lack “the capacity to care for his or her own welfare,” a requirement that can lead to narrow interpretation by the courts.

2. The statute includes language about a specific treatment history, which is not needed for the inpatient context and overly complicates the determination.
